## Footy Senses

The author, Neridah McMullin, uses detail to help readers imagine the sensations spectators feel while watching Collingwood train at Victoria Park. Not only does she describe what Tom and his grandpa can see, she also describes other sensations they experience. One example is:

*The smell of liniment and mud wafted through the air. Tom inhaled deeply – it was the smell of football.*

They do this to avoid accidentally putting the ball out of bounds and giving the opposition a free kick. Today we are going to see how fast you can travel down the corridor! Choose a number between 2 and 10. Multiply your number by the number in the right hand column and write your answer in the left column. Time how fast it takes you to get down the corridor.
